

Low-Tech: rethinking engineering through usefulness, sustainability, and affordability

With **Engineers Without Borders Luxembourg** and **Ingénieurs sans frontières Belgique**

9th OCTOBER 2026 | 10.15AM TO 6PM

CAMPUS KIRCHBERG

WHAT CAN YOU EXPECT?

MORNING CONFERENCE | 10.30AM TO 12.30PM

INTRODUCTION TO LOW-TECH

Bernard Mathieu – Industrial decarbonisation & sustainability expert

LOW-TECH & ENGINEERS WITHOUT BORDERS

Bernard Mathieu – President of ISF Be. & Kristina Teppo – President of EWB Lu.

HOW WE LEARN TO EFFICIENTLY PURIFY WATER FROM THE MOST POWERFUL ENGINEER: NATURE!

Dr Silvia Venditti – Water Team, University of Luxembourg

SOLAR COOKING

Marcel Barros – Citizens for Ecological Learning and Living (CELL)

LUNCH & NETWORKING TOGETHER!

AFTERNOON WORKSHOPS | 1.30PM TO 6PM

THREE PARALLEL HANDS-ON WORKSHOPS

Water Purification — Nature-Based Solutions

University of Luxembourg Water Team

Wetland construction • Water monitoring • Wastewater biodiversity

Solar Oven — Construction

Citizens for Ecological Learning & Living (CELL)

Solar Oven — Test & Measure (Weather permitting)

Engineers Without Borders Luxembourg

REGISTRATION
DEADLINE: 4th OCTOBER

Free of charge!

50 participants max.

Participants can receive a Certificate of participation.
